Please note that adjusting to life in another culture is difficult in ways that students don't always anticipate. Even students who have no history with mental/emotional issues experience serious challenges. We remain committed to supporting all study abroad students as best we can; however, it is difficult for us to provide the level of support to which some students are accustomed. Therefore, we respectfully ask that you nominate students who are not only academically, but also mentally and emotionally prepared to succeed in this program.

Thank you very much in advance for your cooperation.
We look forward to receiving your nominations and applications soon.

Best regards,
International Affairs Office
